Detailed Information

You can also register for our newsletter and never miss any of the news!

There's a lot more to say about our motorhomes than we can fit in the brochure!
We therefore provide a great deal of information, pictures and interactive displays on our web site. Get some inspiration and navigate through your dream Malibu at your leisure from home or on the move! Look out for to the icons in our catalogue.

Patents / Patent registrations – leading by means of innovation!
Patents / Patent registrations are specific to the model and the country, illustrations may differ.

FROM THE BEST SOURCE – THE BRAND WITH REAL ADDED VALUE

The first Malibu models which Carthago founder Karl-Heinz Schuler built in 1979 were already of the highest quality standard. This heritage is just as noticeable today in our A-Class and coachbuilt motorhomes as our decades of experience in the premium segment. Looking for something special? If so, a Malibu motorhome from the extra class is just the right thing! The first impression that you get becomes increasingly clear the closer you look: so many well thought-out details, so much more of everything that makes travelling relaxing. Such as the double floor with huge storage compartment that is unique in this class, the elaborate bodywork with elegant roof / side wall rounding or the high quality furniture construction with double connection technology. We invest more know-how, time and effort than others in order to offer you more value. More functionality, more comfort, more storage space, and more feeling of well-being. The GENERATION M of Malibu motorhomes is setting more standards than ever in the upper class – always with the claim of being the best motorhomes in their class, in order to give you the best holiday moments of your life.

Head office of the Carthago Group in Aulendorf, Upper Swabia

Malibu A-Class | I 500 QB

A UNIQUE SUCCESS STORY

2013

Inauguration of Carthago City in Aulendorf, southern Germany, with a large sales showroom.

2018

Three new models complete our range of motorhomes:
the single bed model I 441 LE, just 6.67 m in length, and the super-comfortable I/T 490 LE and I/T 500 QB models.

2022

The Malibu motorhomes are gathering momentum! The international service and dealer network is being extended to around 100 dealers in Europe.

2015

Exclusive presentation at the Caravan Salon Düsseldorf: the new A-Class and coachbuilt Malibu motorhomes were impressive! Voted New Product of the Year by AutoBild Reisemobil magazine.

2021

Introduction of the Malibu GENERATION M. All Malibu motorhomes stand out with a new look and impress both inside and out. State of the art top class technology, elaborate main body construction, thermal bridge free roof/wall connection thanks to frame members glued over their entire surface, combined with a fresh design and high quality furniture construction.

IMPRESSIVE MALIBU QUALITY!

“The low, pulled-down position of the windscreen provides an extremely good view. […] The windows in the driver’s cabin and the storage compartment hatches make a pleasantly large impression.”

AutoBild Reisemobil, 06/2020
(Driving report: Malibu I 500 QB)

“The view from the driver’s seat towards the front and through the mirrors towards the rear is excellent. […] The integrated daytime driving lights with LED fibre optic technology are the most eye-catching new feature.”

promobil, 09/2020
(Supercheck: Malibu I 441 LE)

“Irrespective of that, the majority of drivers thought that the Malibu was one of the quietest motorhome they had ever driven.”

promobil, 06/2020
(Endurance test: Malibu T 430 LE)

“Particularly during the winter, Malibu scores points with its winterproofing. It conjures up a homely cosiness in the living area thanks to the heated double floor. The workmanship quality and outstanding driving safety are impressive.”

AutoBild Reisemobil, 02/2021
(Endurance test: Malibu T 430 LE)

“The exterior design of the Malibu is perfect match for the harmonious design of the interior.”

AutoBild Reisemobil, 05/2021
(Comparison test: Malibu I 490 LE)

“They came up with something special in the bathroom. The entire front wall is designed as a door which can be closed across the passage to create a private changing room.”

promobil, 09/2020 (Supercheck: Malibu I 441 LE)

“Despite having a comparatively classic layout, the Malibu T 490 LE scores points with several well thought-out details. This starts with the wood-free body structure and the insulated double floor. Not only does this provide frost-free storage for the fresh water and waste water tanks, it also creates additional storage space.”

Reisemobil International, 02/2020 (test drive: Malibu T 490 LE)

“The furniture construction is stable, and the workmanship is excellent. Appealing: The concave overhead storage cabinet flaps are appealing. […] There is very little wind noise from the framed windows and the roof domes, and the furnishings are extremely quiet and do not rattle.”

Reisemobil International, 12/2020
(Professional test: Malibu T 430 LE)

COMFORT CLASS

COMPACT AND LIGHT!

The compact class of Malibu motorhomes consists of four coachbuilt and five A-Class models. A common feature is the length of less than seven metres and the possibility of certification with a gross weight of 3.5 t. This means good handling while driving, and a motorhome which is equivalent to a car with regard to traffic regulations. A class B driver's licence is sufficient to drive one. In spite of this, the compact class provides all of the distinctive characteristics of the new Malibu GENERATION M, and therefore complete motorhome comfort. There's no doubt about it: Malibu – compact is class!

Malibu coachbuilt | T 430 LE

T 430 LE | Rome world of living

COMFORT PLUS CLASS

THE DECISIVE PLUS!

Would you like a little more? More space, more equipment, more comfort and all of this in an attractive body with enduring quality? If so, the answer is: Malibu Comfort Plus class. Nothing is left to be desired in the three coachbuilt and three A-Class motorhomes. They are up to half a metre longer than the biggest models in the Malibu compact class. Centimetres which make a difference when 3.5 t certification is not decisive, and comfort is more important than weight.

In a nutshell: Malibu Comfort Plus class – if you want a little bit more.

Malibu A-Class | I 490 LE

I 500 QB | Chestnut part leather world of living

Malibu compact class:

- Four coachbuilt and five A-Class vehicles ranging from 6.66 to 6.99 m
- Compact models suitable for 3.5 t driving licence
- Layouts with transverse bed, lengthways single beds or queen-size bed
- Vario swivelling, combined or compact luxury bathroom
- Drop-down bed as standard for the A-Class vehicles, optional for the three coachbuilt vehicles
- All of the technical and comfort characteristics of GENERATION M
- Optional: increase to 4.25 t permissible gross weight

Malibu Comfort Plus class:

- Three coachbuilt and A-Class from 7.20 to 7.50 m length
- Comfort Plus models available from 3.5 t to 4.25 t
- Layouts with lengthways single beds or queen-size bed
- Combined or comfort luxury bathroom
- Drop-down bed as standard for the A-Class, optional for the coachbuilt
- All of the technical and comfort characteristics of GENERATION M

MALIBU A-CLASS

THE FASCINATION OF THE PREMIUM CLASS

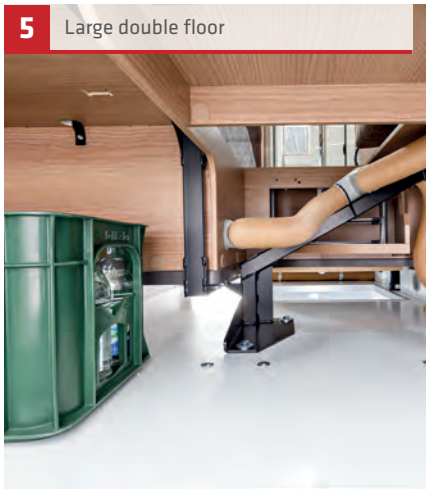
Elegant exterior design, top class driver visibility and an extra-ordinary feeling of spaciousness! Spacious living environment and an easily accessible drop-down bed – sweet dreams!

STANDARD EQUIPMENT:

- Driving and visibility concept with best test values
- XL main cabin door "premium two 2.0"
- Large L-shaped lounge seating area
- Changing room
- Double floor storage compartment
- Underfloor heating effect

OPTIONS:

- ALDE warm water heating (depending on model)
- Omission of drop-down bed
- 32" LED flat screen (depending on model)



Strengths of the Malibu A-Class:

1 Active driving, extra-low dashboard for early visibility of the road surface after just 2.77 m. Best test result! Three-dimensionally designed front, flat angle: less wind resistance, fuel consumption and wind noise

2 XL main cabin door “premium two 2.0” with wider passage size of 63 cm, secure double locking and extra-wide door window, pleated blackout blind and integrated insect screen roller blind

3 Fuel tank flap integrated flush in the side panel

4 Passengers cabin door with extra-low entrance, secure double locking and electrically operated power windows

5 Huge storage compartment in double floor, accessible from the inside and the outside

6 Insulated pleated windscreen blind with vertical operation as sun blind, privacy screen, blackout and insulation from the heat and cold of the living area

7 Wiring for integrated reversing camera monitor in a glare-free location

MALIBU COACHBUILT

DYNAMIC WITH GOOD HANDLING

These are the stylish coupés among the motorhomes! The original driver's cabin is slim, and gives you a hint of sportiness with the dynamic roof profile.

STANDARD EQUIPMENT:

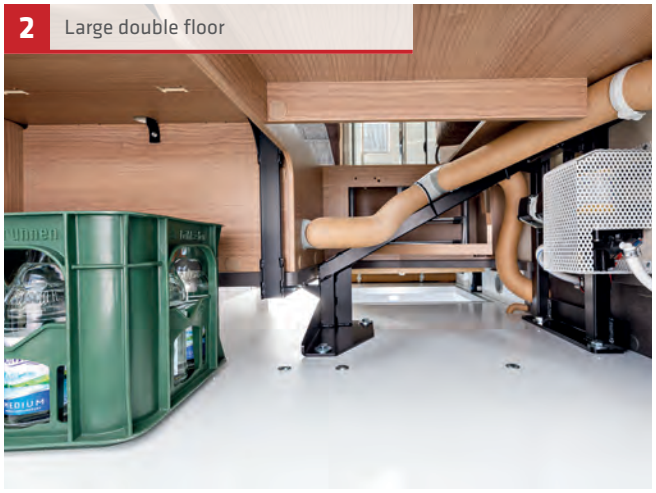
- XL main cabin door "premium two 2.0"
- Large L-shaped lounge seating area
- Single level living area floor
- Changing room
- Double floor storage compartment
- Underfloor heating effect

OPTIONS:

- ALDE warm water heating (depending on model)
- Central drop-down bed (depending on model)
- "Skyview" skylight above driver's cabin

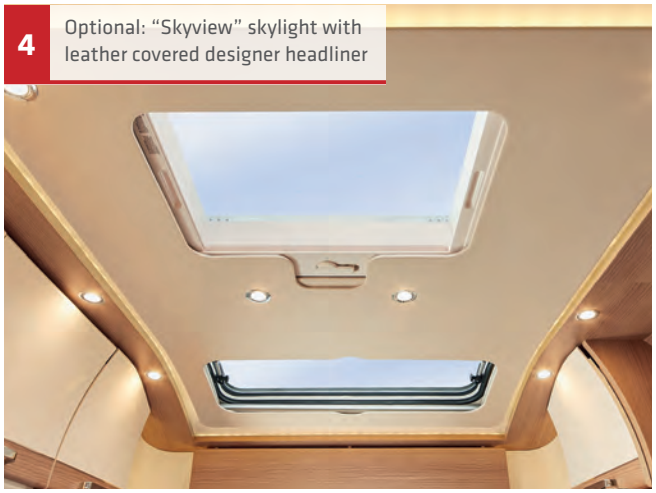
1 XL main cabin door “premium two 2.0”

2 Large double floor



3 Armrests covered in same material as living area

4 Optional: “Skyview” skylight with leather covered designer headliner



5 All-round overhead storage cabinets

6 One level floor

Strengths of the Malibu coachbuilt:

1 XL main cabin door “premium two 2.0” with wider entrance size (63 cm), secure double locking, extra-wide door window, pleated blackout blind and integrated insect screen roller blind

2 Huge storage compartment in double floor, accessible from the inside and the outside

3 The armrests of the rotating driver and passenger seats are covered in the same material as the living area

4 Cosy atmosphere thanks to ceiling canopy with integrated, indirect lighting

Optional: “Skyview” skylight with leather-covered designer headliner above the driver’s cabin and the living area

5 Large, all-round overhead storage cabinets in driver’s cabin, living area and sleeping area

6 Continuous one level living area floor, without tripping hazards

LIVING

Malibu A-Class | I 490 LE | Lisbon world of living

Malibu coachbuilt | T 460 LE | Ancona 21 world of living

1 Swivel-out shoe cabinet

2 Living area table can be rotated and moved in two directions using the foot pedal

3 LED ambient lighting can be switched seperatley

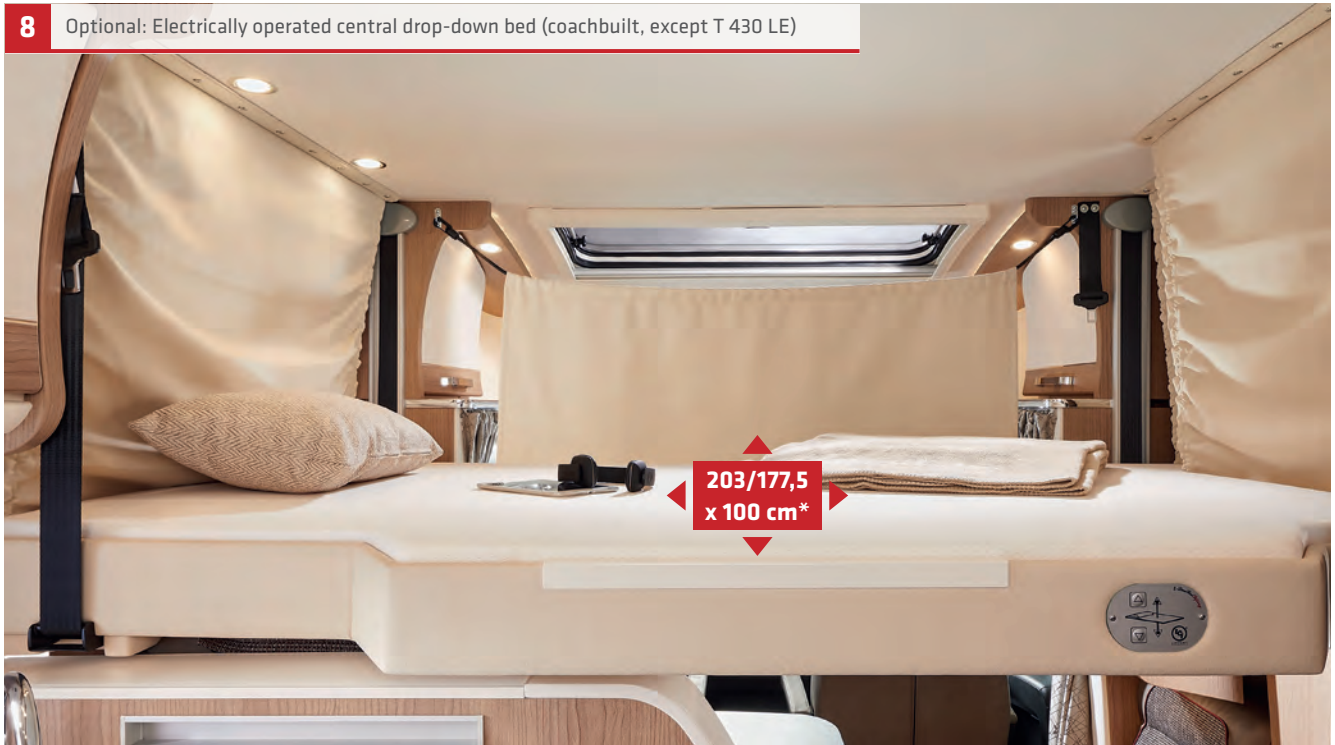
4 Elegant kitchen worktop

5 All-round overhead storage cabinets above the lounge seating area

6 Optional: LED flat screen*

7 Drop-down bed with extra-large bed dimensions and large sitting height (A-Class)

8 Optional: Electrically operated central drop-down bed (coachbuilt, except T 430 LE)



Living advantages:

1 L-shaped lounge seating area with swivel-out shoe cabinet and holding system for up to four pairs of shoes integrated in the plinth of the seat bench, including LED accent light

2 Living area table can be conveniently rotated and moved in two directions using the foot pedal

3 LED ambient lighting and LED work lighting can be switched on separately

4 Elegant kitchen work surface acts as visual room divider and additional storage area

5 Large amount of storage space due to all-round overhead storage cabinets above the lounge seating area

6 Optional: LED flat screen (up to 32") at convenient viewing level incl. wall bracket or pull-out system*

7 Extra-large drop-down bed with bed dimensions of 195 x 160 cm, large sitting height, convenient access to bed without ladder using side seat as well as stable bed surface (A-Class)

8 Optional: Electrically operated central drop-down bed, large sleeping area, headroom of 184 cm beneath the bed in the living configuration (coachbuilt, except T 430 LE)

9 Underfloor heating effect thanks to the fully heated double floor with climate storage function

* Position and/or size depending on model

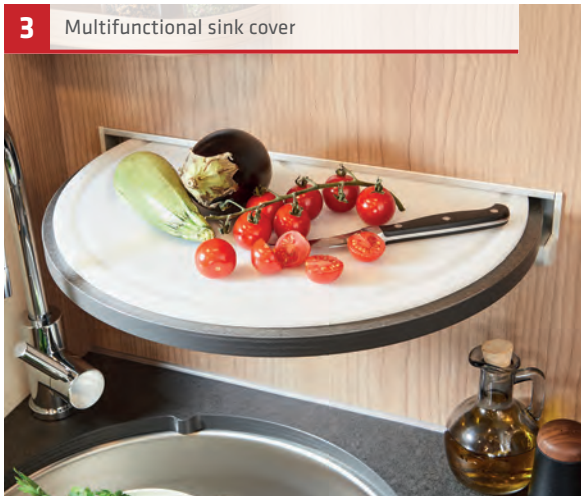
GALLEY KITCHEN

(I 441 LE, I/T 430 LE)

1 Space-saving galley kitchen – for compact vehicle lengths

2 Lots of storage space thanks to six deep kitchen drawers

3 Multifunctional sink cover



4 3-ring gas hob

5 133 l Slimtower fridge at convenient hand height

6 Spacious overhead storage cabinets

6 Optional: Capsule coffee maker incl. pull-out system

Advantages of the galley kitchen:

1. Space-saving galley kitchen makes compact vehicle lengths possible
2. Lots of storage space thanks to six deep, roller-mounted kitchen drawers with self and soft closing mechanism and divided front panels for convenient access, plus integrated waste bin and wooden cutlery insert
3. Additional storage space created by inserting the sink cover into the wall holder
4. 3-ring gas hob with one-piece glass cover, removable cast iron grating and easy-to-clean glass base
5. 133 l Slimtower fridge with separate 12 l freezer compartment with door opening at both sides, positioned at convenient hand height
6. Overhead storage cabinets with lots of storage space
   Optional: Capsule coffee maker including pull-out system in overhead storage cabinet
7. Flush work surface due to embedded round sink
8. Rear kitchen wall in cream decorative glass for easy cleaning and maintenance
9. Optional: gas oven with grill function in the kitchen

CORNER KITCHEN & COMFORT CORNER KITCHEN

(Corner kitchen: I/T 410 DB, 440 LE, 440 QB, 460 LE; Comfort corner kitchen: I/T 490 LE, 500 QB)

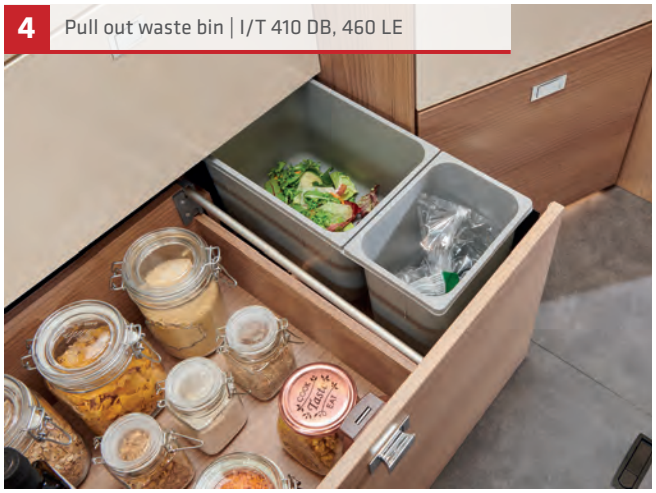
1 Comfort corner kitchen with curved, extra-large worktop | I/T 490 LE, 500 QB

1 Corner kitchen | I/T 410 DB, 440 LE, 440 QB, 460 LE

2 153 l fridge | I/T 490 LE, 500 QB

3 Six deep kitchen drawers and additional bottle cabinet

4 Pull out waste bin | I/T 410 DB, 460 LE



5 Optional: Capsule coffee maker incl. pull-out system

Corner kitchen /
luxury corner kitchen advantages:

1 Extra-large, flush work surface thanks to embedded round sink and additional storage surface created by hooking the sink cover into the wall holder

2 133 l Slimtower or 153 l refrigerator with 12 l or 29 l freezer compartment with door opening at both sides at convenient hand height

3 Lots of storage space thanks to six deep, roller-mounted kitchen drawers with self and soft closing mechanism and divided front panels for convenient access, plus integrated waste bin and wooden cutlery insert

4 Waste bins which can be pulled out separately with separate hygiene area (I/T 410 DB, 460 LE)

5 Overhead storage cabinets with lots of storage space
Optional: Capsule coffee maker including pull-out system in overhead storage cabinet

6 3-ring gas hob with divided glass cover, removable cast iron grating and easy-to-clean glass base

7 Elegant kitchen worktop for visual room partitioning and as additional storage surface

8 Optional: gas oven with grill function in kitchen base unit (except I/T 440 LE, 440 QB)

VARIO SWIVELLING BATHROOM WITH CHANGING ROOM

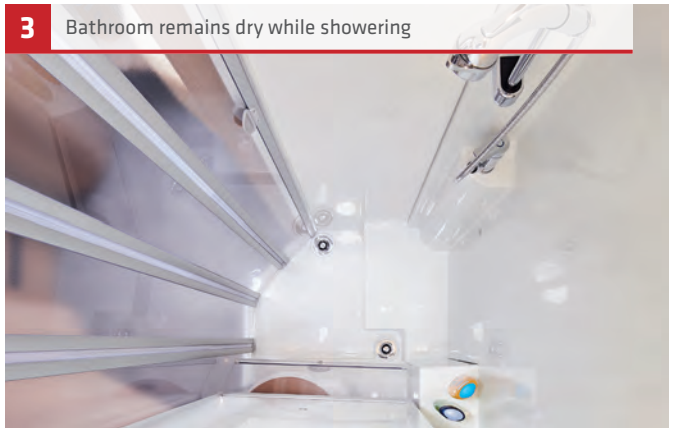
Vario swivelling bathroom: Bathroom, toilet and shower room (I 441 LE)

1 Basic position: Large bathroom and toilet

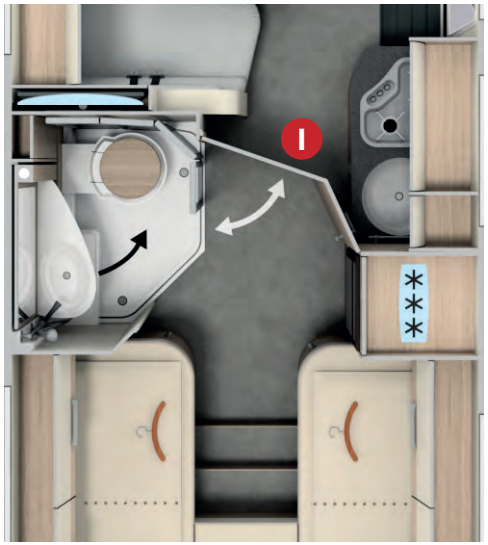
2 Swivelling wash stand mirrored wall

3 Large, completely separable shower room

3 Bathroom remains dry while showering



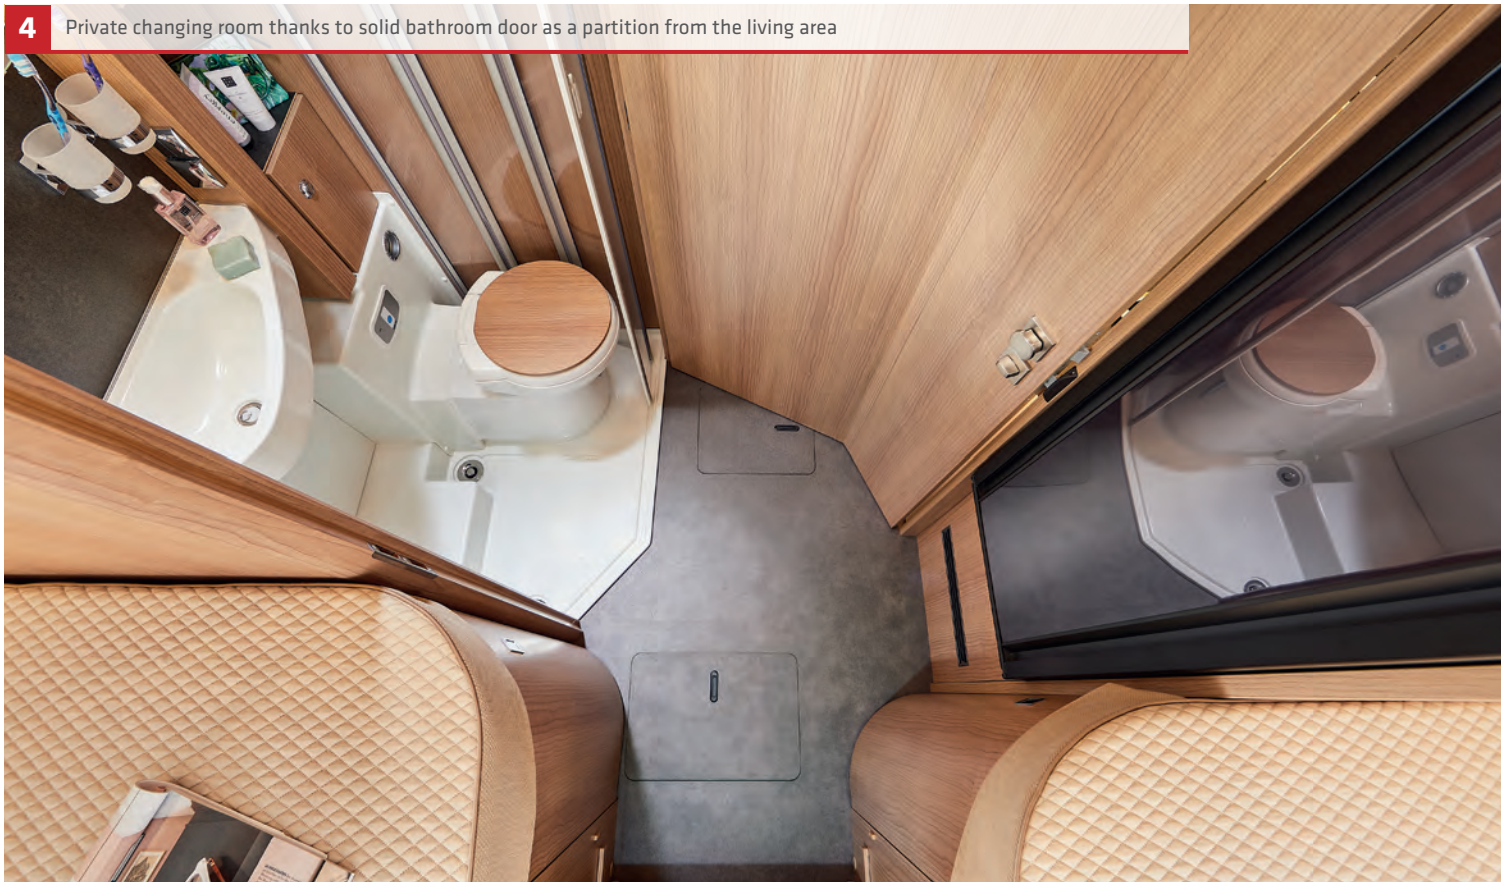
Vario swivelling bathroom: Changing room



Model I 441 LE:
A changing room which is separated from the living area is created in a single step.

The Ⓘ solid bathroom door acts as a partition from the living area and creates a private changing room at the same time.

4 Private changing room thanks to solid bathroom door as a partition from the living area



Vario swivelling bathroom advantages:

1. Well thought-out and innovative: clever use of space provides plenty of room and comfort with short vehicle length
2. Thanks to a sophisticated swivelling wall, a spacious shower or bathroom/toilet is created in an instant
3. Large shower that can be separated off thanks to sectional shower door, bathroom remains dry when showering
4. Solid bathroom door also acts as a room partition from the living area, therefore creating a private changing room
5. Bathroom floor with shower tray, two drains and one-level floor
6. Many practical shelves, large utensil cabinet and mirror with backlighting
7. Plenty of light and ventilation in the bathroom thanks to the Mini-Heki skylight

COMBINED BATHROOM WITH CHANGING ROOM

Combined bathroom: Bathroom, toilet and shower room (I/T 410 DB, 430 LE, 460 LE)

1 The combined bathroom has it all: Bathroom and toilet area, plus separable shower

2 Round shower with wrap-around doors – bathroom remains completely dry

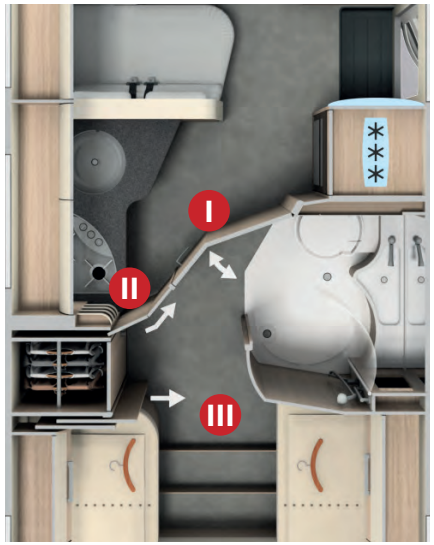
3 Spacious wash stand base unit

4 Large mirror cabinet with shelving

Combined bathroom: Changing room

Model I/T 430 LE:
A changing room which is separated from the living area is created in a single step.

The Ⅰ solid bathroom door acts as a partition from the living area and creates a private changing room at the same time.

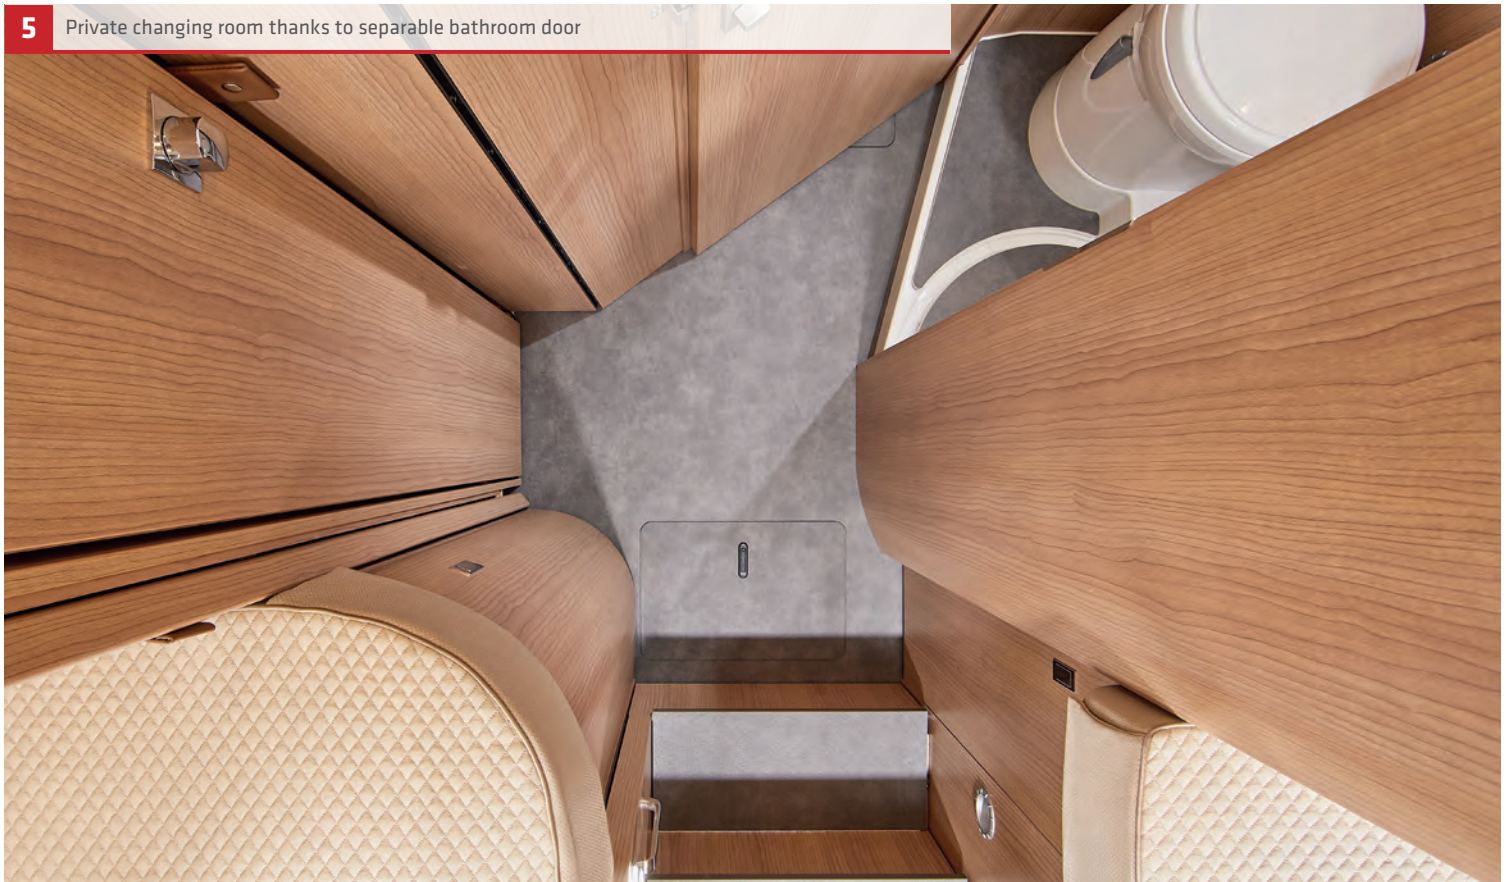


Model I/T 460 LE:
A changing room which is separated from the living and sleeping area is created in just three steps.

The Ⅰ solid bathroom door and the Ⅱ pull-out room partitioning wall act as partitioning from the living area, creating a private changing room at the same time.

The Ⅲ optional, solid wooden sliding door acts as partitioning from the sleeping area, creating a completely separate changing room.

5 Private changing room thanks to separable bathroom door



Advantages of the combined bathroom:

1. The curved wash stand surface highlights the visual room partitioning into a bathroom, toilet and shower area
2. Fully separable round shower with wrap-around doors, shower base with shower tray incl. two drains, practical storage shelves integrated in shower wall and optional, waterproof shower insert with the same design as the living area floor
3. Large wash stand base unit
4. Spacious mirror storage cabinet with shelving arrangement, additional shelves and additional mirror next to mirrored storage cabinet
5. Private changing room with separation from living area thanks to solid bathroom door Optional: Solid wooden sliding door for separating the sleeping area and the changing room (I/T 460 LE)
6. Plenty of light and ventilation in the bathroom thanks to the Mini-Heki skylight with towel rail

COMPACT LUXURY BATHROOM WITH CHANGING ROOM

Compact luxury bathroom: Bathroom, toilet and shower room (I/T 440 LE, 440 QB)

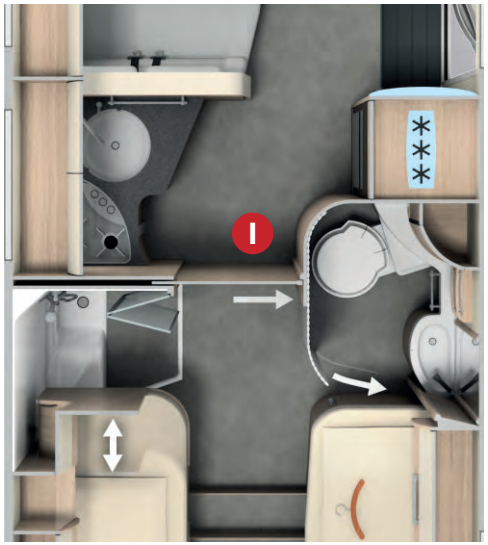
1 Spacious bathroom and toilet

2 Shower opposite the washing and toilet area

3 Large mirrored storage cabinet with shelving

4 Spacious wash stand base unit

Compact luxury bathroom: Changing room



Model I/T 440 LE:
A changing room which is separated from the living area is created in a single step.

The ❶ solid wooden sliding door acts as a partition from the living area, creating a private changing room at the same time.

5 Private changing room

Compact luxury bathroom advantages:

1. Separate bathroom and toilet with lots of freedom of movement
2. Large shower room opposite bathroom and toilet with headroom of 198 cm, level shower access and removable shower insert matching living area floor
3. Spacious and illuminated mirror storage cabinet with shelving
4. Spacious wash stand base unit
5. Private changing room with separation from living area thanks to solid wooden sliding door
6. Hand towel rail above round shower in roof dome
7. Plenty of light and ventilation in the bathroom and toilet thanks to the Mini-Heki skylight

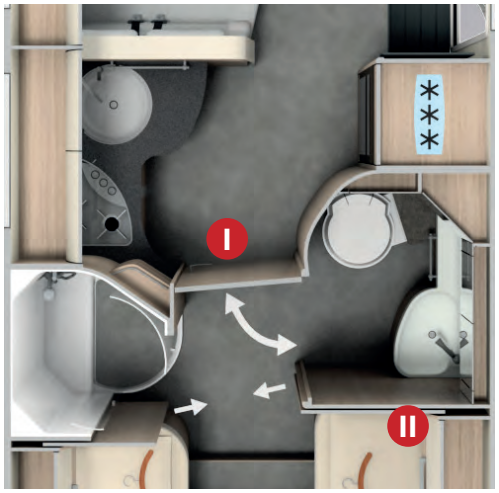
COMFORT LUXURY BATHROOM WITH CHANGING ROOM

Comfort luxury bathroom: Bathroom, toilet and shower room (I/T 490 LE, 500 QB)

1 Spacious bathroom and toilet

2 Large round shower opposite

Comfort luxury bathroom: Changing room

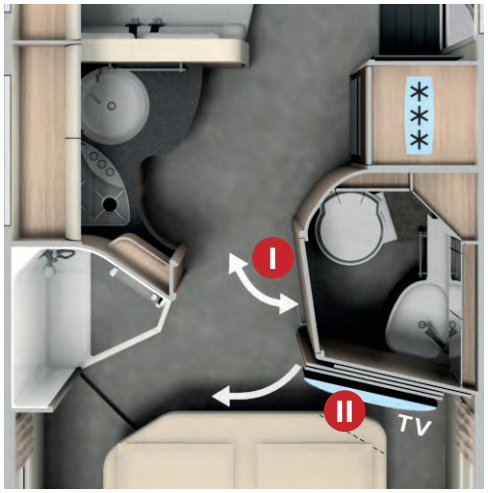


Model I/T 490 LE:
A changing room which is separated from the living and sleeping areas is created in just two steps.

The Ⅰ solid luxury bathroom door acts as partitioning from the living area, creating a private changing room at the same time.

The Ⅱ solid wooden sliding door acts as partitioning from the sleeping area, creating a completely separate changing room.

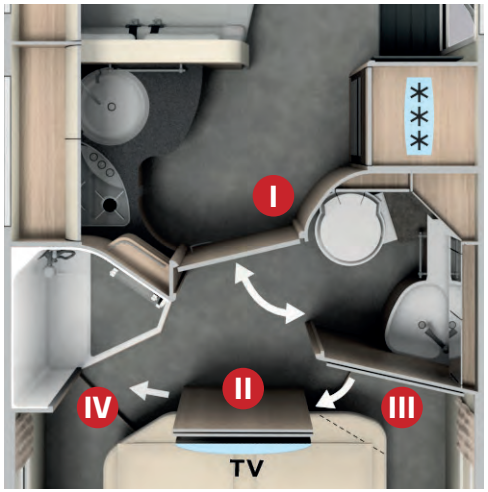
3 Sleeping area/changing room partitioning | I/T 490 LE



Model I/T 500 QB:
A changing room which can be separated from the living and sleeping areas is created in just four steps.

The Ⅰ luxury bathroom door acts as partitioning from the living area, creating a private changing room at the same time.

The Ⅱ pull-out TV wall and room divider acts as partitioning from the sleeping area.

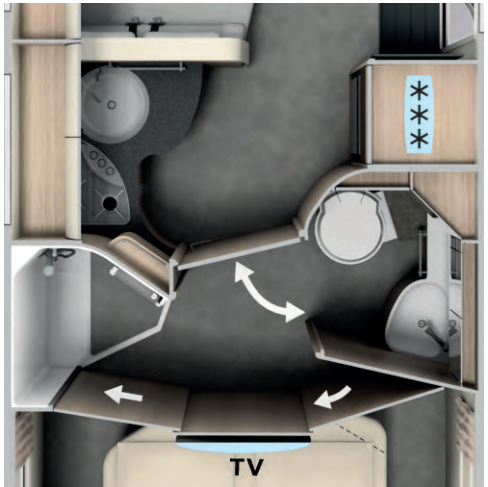


Ⅰ Luxury bathroom door in position for partitioning from living area.

Ⅱ TV wall in central position for relaxed TV viewing.

Ⅲ Swivelling door for partitioning off the sleeping area at the passenger side.

Ⅳ Pull-out sliding door at driver's side for complete partitioning of changing room from sleeping area.



Separate changing room with considerable freedom of movement, room partitioning from living and sleeping areas including central TV position for relaxed viewing.

Comfort luxury bathroom advantages:

1 Separate bathroom and toilet with considerable freedom of movement
2 Large shower room opposite bathroom and toilet with headroom of 198 cm and level shower access
3 Solid wooden sliding door for separating the sleeping area from the changing room (I/T 490 LE)
4 Pull-out TV wall and room divider for variable partitioning of sleeping area from changing room and flexible TV positioning (I/T 500 QB)
5 Private changing room thanks to luxury bathroom door with room dividing function
6 Spacious mirrored storage cabinet with shelving
7 Hand towel rail above round shower in roof dome
8 Plenty of light and ventilation in the bathroom and toilet thanks to the Mini-Heki skylight

4 Partitioning between sleeping area and changing areas | I/T 500 QB

LENGTHWAYS SINGLE BEDS

(I 441 LE, I/T 430 LE, 440 LE, 460 LE, 490 LE)

1 Lengthways single beds with extra-large bed dimensions and convenient access

2 Wardrobes beneath lengthways single beds

Pull-out lengthways single bed
Pull-out comfort access steps

3 Pull-out access steps | not I/T 440 LE

3 Optional: Pull-out comfort access steps | not I/T 440 LE

3 Storage compartment in comfort access steps

4 Single bed which can be extended into shower area | I/T 440 LE

5 Floor-to-ceiling wardrobe | I/T 460 LE

Lengthways single bed advantages:

1. Extra-large sleeping area
2. Wardrobes with additional interior height which can be conveniently accessed from the front and above thanks to the lift function and the divided mattress (I/T 440 LE driver side only)
3. Convenient access to the bed thanks to the pull-out access steps, even when using the additional mattress for sleeping area extension (not I/T 440 LE)
4. Lengthways single bed at passenger side, extendable by 30 cm (I/T 440 LE)
5. Floor-to-ceiling wardrobe (I/T 460 LE)
6. Heated, ventilated slats and 7-zone cold foam mattress for a relaxing night's sleep
7. Adjustable head sections (I/T 440 LE driver side only)
8. All-round overhead storage cabinets, also in the rear area

QUEEN-SIZE BED

(I/T 440 QB, 500 QB)

Pull-out TV wall and room divider

1 Luxury bathroom door with room partitioning function from living area | I/T 500 QB

1 TV wall in central position for relaxed viewing | I/T 500 QB

1 Room partition with closed swivelling and sliding door for complete room partitioning | I/T 500 QB

2 Movable queen-size bed | I/T 440 QB

3 Large drawers beneath bed*

4 Fold-away mattress section | I/T 500 QB

Queen-size bed advantages:

1. Pull-out TV wall and room divider for variable partitioning of sleeping area from changing room and flexible TV positioning (I/T 500 QB)
2. Queen size bed movable by 30 cm, meaning long bed dimensions in spite of short vehicle length (I/T 440 QB)
3. Large drawers beneath queen-size bed*
4. Fold-away mattress section at end of bed for extra-wide passage (I/T 500 QB)
5. Heated, ventilated slats and 7-zone cold foam mattress for a relaxing night's sleep

* Version depending on model

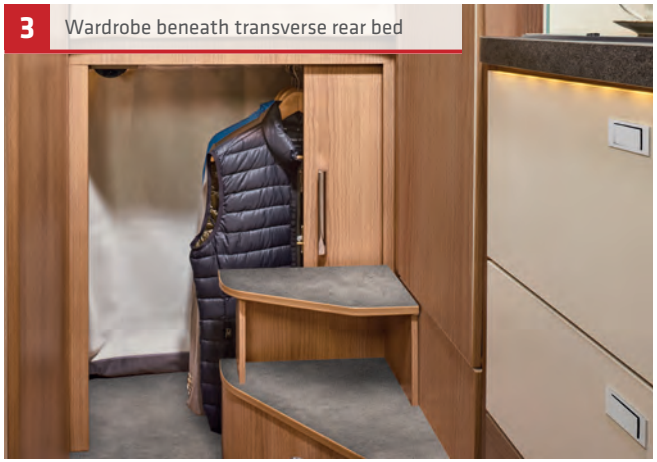
TRANSVERSE REAR BED

(I/T 410 DB)

1 Transverse rear bed with large bed dimensions

2 Tall wardrobe

3 Wardrobe beneath transverse rear bed



Transverse rear bed advantages:

1 Large bed dimensions

2 Tall wardrobe

3 Wardrobe beneath transverse rear bed for additional storage space

4 All-round overhead storage cabinets in the rear area

5 Heated, ventilated slats and 7-zone cold foam mattress for a relaxing night's sleep

6 Window above bed on rear wall

7 Optional: World of Sleeping and decoration set with made-to-measure elasticated covers, decorative cushions and Malibu house blanket

MORE MOTORHOME.
MORE VALUE.
MORE HOLIDAY.

Malibu motorhomes have special characteristics and advantages which cannot be found in this combination in any other motorhome on the market. This added value, which is typical of the brand, can be felt and experienced on every tour that you make with your Malibu: with additional functionality, additional comfort, additional storage space and additional sense of well-being. That has always been our added value promise to you. The Malibu models in GENERATION M set the bar even higher in the upper class!

> My major passion is to develop ideas through to product maturity. The most important thing when doing this is for these ideas to always provide real customer benefit. [...] We want to have satisfied customers.
>
> **Karl-Heinz Schuler,**
> **founder and owner of the Carthago Group**

Top class bodywork with elegant roof and side wall rounding

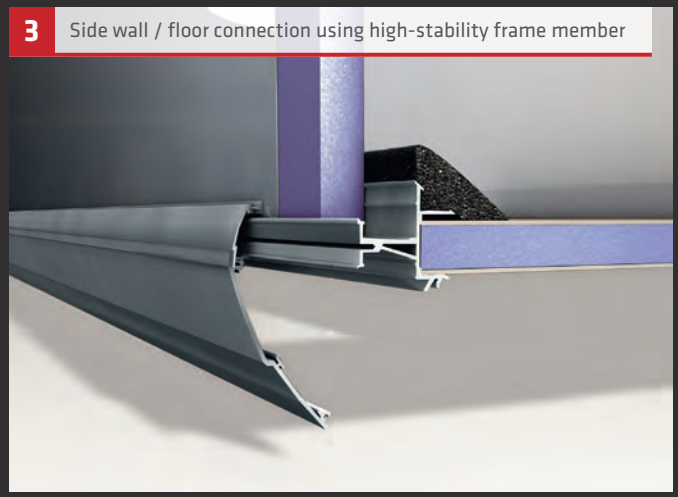
Best driver's cabin visibility concept (A-Class)

High quality furniture construction with double connection technology

The most storage space in its class

TOP CLASS BODYWORK WITH ELEGANT ROOF AND SIDE WALL ROUNDING

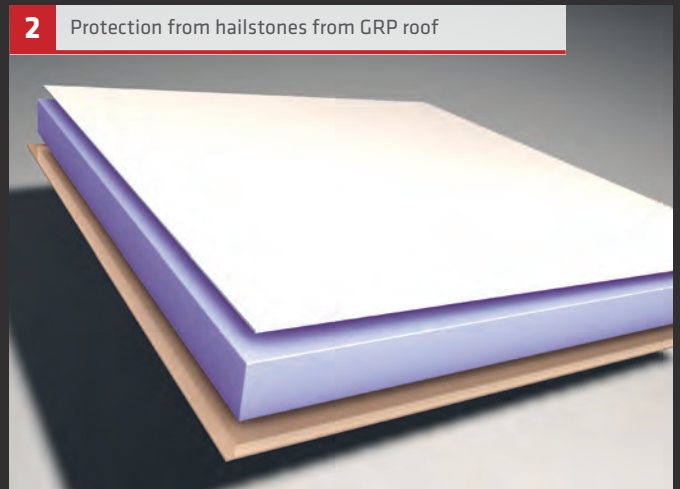
3 Side wall / floor connection using high-stability frame member



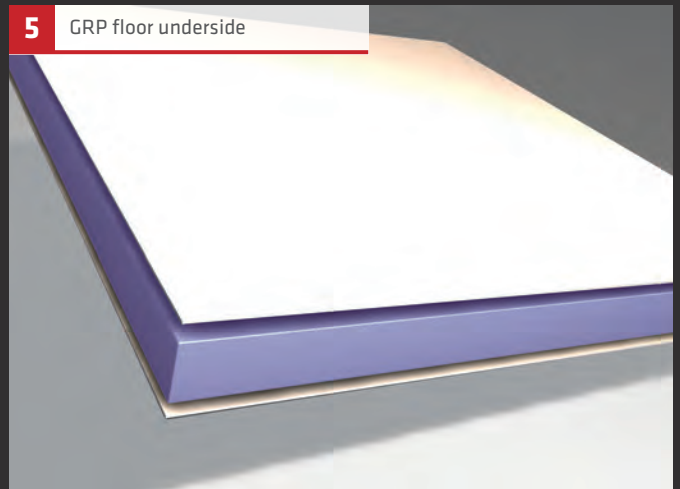
4 Extra-low rear garage

1 Thermal bridge-free roof/wall connection

2 Protection from hailstones from GRP roof



5 GRP floor underside



MALIBU MAIN BODY CONSTRUCTION CONCEPT

The Malibu bodywork is consistently oriented to what Malibu drivers want: long-term carefree driving and motorhome value retention. That is why we put our faith in long-term quality – in the high-stability materials that are used as well as the modern processing technology. Instead of the conventional body connection using point-by-point dowel or screw connections, we use an extremely stable and thermal bridge-free connection using form-fitted bonded frame members and PU toothing profiles. An important difference!

	Malibu main body construction	Frequently used standard main body construction
Waterproofing guarantee	10 years[1]	Usually significantly less
Wall structure	Aluminium wall exterior, hard foam insulating core made from moisture-resistant RTM and water-repellent PU reinforcements	Exterior walls often made from GRP, insulation via water-sensitive EPS foam, wooden frame as connecting/reinforcing element
Roof/wall connection	High-stability frame member, bonded form-fitting with side-on collision protection effect	Roof and wall screwed together point-by-point with sealing tape and covering profile
GRP hailstone and stone impact protection	Standard: Roof top and underfloor made from GRP	Wooden underfloor with maintenance-intensive protective coating, roof surface made from hailstone-sensitive aluminium
Attachments	Side aprons made from extruded aluminium profile, segmented into multiple sections. Multi-part rear frame and separate rear bumper	Sensitive moulded plastic parts without segmenting, and no separate rear bumper

6 Seitz S4 main cabin window

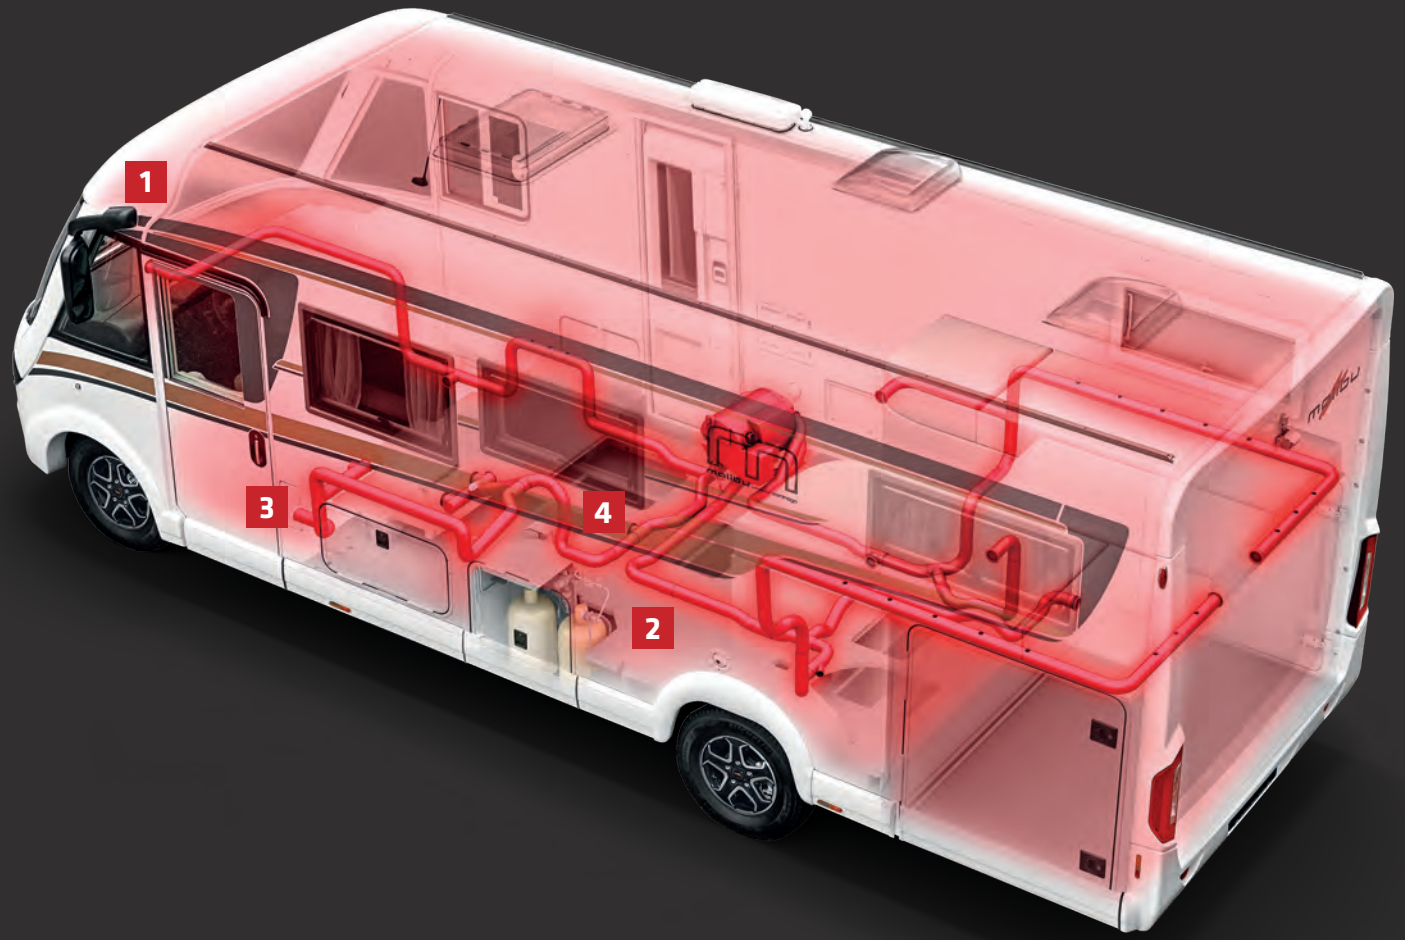
7 Flat side windows

8 4-piece rear frame

Advantages of the Malibu main body construction:

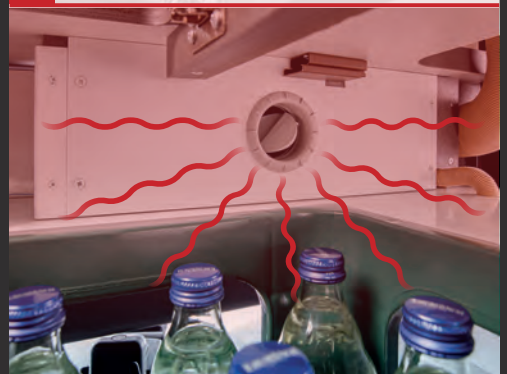
- Longevity and therefore good value retention
- Year-round comfort thanks to perfect insulation
- Maximum ride comfort and safety thanks to high-stability body
- Optimum side impact protection
- Protection from hailstones, stone impacts and moisture
- 10-year leak-proof guarantee as standard[1]
- Low background noise level while travelling
- Flush-fitted fuel tank flap (A-Class)
- Roof / side wall rounding for elegant overall appearance and maximum main body stability
- Segmented rear and side bumper attachments, easy to repair and therefore affordable replacement in the event of damage
- Main cabin window frame with increased security

MALIBU HEATING AND AIR CONDITIONING EQUIPMENT



1 Dashboard front with heat radiation

2 Fully heated double floor



3 Heating for cold-sensitive areas

4 Underfloor heating effect

WELL-BEING CLIMATE IN THE MOTORHOME ALL YEAR ROUND!

Is having a good climate particularly important to you when you are on the move? If so, a Malibu motorhome is the perfect companion for you! Regardless of the time of year: you will always have a real feel-good climate in the Malibu. How is that possible? On the one hand, we provide the driver's cabin area, the technical components, the storage compartment and the main cabin door entrance with targeted heating, and on the other hand the heat circulates through the entire double floor. This means that there is always a pleasant climate inside the motorhome – even at freezing outside temperatures. And vice versa, when it's hot outside, the Malibu is nice and cool. Since that which insulates and heats in winter provides perfect protection from the heat in the summer.

	Malibu heating and air conditioning equipment	Frequently used standard heating and air conditioning equipment
Year-round use	Winter-proof motorhome with year-round comfort	Only "suitable for winter use" or conditionally suitable for comfortable year-round use
Underfloor heating effect	The entire double floor is heated with a climate storage function and underfloor heating effect as standard	No heated double floor, separate underfloor heating required
Heating for cold-sensitive areas	Additional warm air outlets throughout the vehicle, targeted heating of all technical components and cold-sensitive locations	Cold-sensitive areas such as door entrances, tanks and storage compartments often do not have additional targeted heating
Dashboard heating (A-Class)	Dashboard with targeted heating with wide-area heating effect for pleasant heat radiation in driver's cabin	No additional dashboard heating therefore greater amount of cold radiation from windscreen

Malibu Connect Truma iNet X Pro Panel | Touring pack A-Class

Advantages of Malibu heating and air conditioning equipment:

- Winter-proof motorhome with year-round comfort
- Fully insulated double floor, therefore underfloor heating effect for warm feet
- High-efficiency insulation thanks to high-quality RTM hard foam insulation core, meaning less energy consumption
- Targeted heating of dashboard front for heating the driver's cabin (A-Class)
- Targeted heating of the technical components protects them from frost
- Additional targeted heating of areas that are sensitive to cold such as the storage compartments and the main cabin door entrance in the living area
- Optional: ALDE warm water heating (I/T 460 LE, 490 LE, 500 QB)
- Malibu Connect Truma iNet X Pro Panel: Innovative and digital control panel with central access to all built-in devices and main cabin components incl. colour display with touch function, Bluetooth and app control (Touring pack A-Class)

BIGGEST STORAGE COMPARTMENT IN THE CLASS

YOU CAN NEVER HAVE ENOUGH STORAGE SPACE IN A MOTORHOME!

All Malibu motorhomes provide lots of room thanks to the extra-large double floor and many easily accessible storage compartments, so that your holiday luggage is stowed away safely and neatly in an instant. Bulky luggage such as camping furniture and skis can be stowed away in an optimum way in the central through-loading storage compartment. Thanks to the LED lighting in the through-loading double floor, you always have an overview of your luggage. Your Malibu motorhome is easily and conveniently loaded from the outside via numerous large external hatches. The large, self-supporting living area floor hatch in the living and kitchen area gives you convenient access to the extra deep storage compartments from the interior. And the double floor also acts as climate storage to protect your cargo from frost.

	Malibu storage space	Frequently used standard storage space
Double floor type	Double floor along the entire length of the vehicle with a usable height of up to 48 cm	Equipment double floor with limited use of storage space and less usable height
Exterior access	Multiple exterior access points at driver and passenger sides with interior access via L-shaped lounge seating area and side seat bench	Few or no exterior access points, no interior access to the exterior storage compartments possible
Through-loading function	Central through-loading storage compartment over the entire vehicle width in front of the main cabin door	No through-loading function due to lack of exterior access points or storage compartment that is not continuous
Interior access	Two large, lowered living area floor hatches in the entrance and kitchen area incl. high quality hinges	No interior access, storage compartment contains equipment and can only be used to a limited extent
Weight balance	Thanks to the large amount of storage space and multiple access locations, the weight can be distributed in an optimum way during loading	Limited amount of storage space and access options only allow even weight distribution to a limit extent

Advantages of the double floor:

- Double floor with huge, heated storage compartment, usable height up to 48 cm
- Access from the exterior via several large hatches
- Large, central through-loading space (interior height 17 cm) with extra-deep double floor storage compartment (usable height 39 cm), also easy to load through the entrance door via a large, self-supporting living area floor hatch
- Interior access via the L-shaped seating area and the swing-up (I 490 LE, 500 QB) or lift-up side seat bench (not I 441 LE)
- The entire double floor is heated with a climate storage function and underfloor heating effect as standard
- LED lighting in through-loadable double floor

BIGGEST STORAGE COMPARTMENT IN THE CLASS

1 **Large, heated double floor storage compartment** (usable height up to 48 cm) with central through-loading area (interior height 17 cm)

2 **Huge living area floor hatch** in entrance area, also easy to load from the outside when the main entrance door is open, second living area floor hatch in kitchen area (usable depth of up to 39 cm)

3 **Convenient loading of double floor storage compartment** at driver side via another large external hatch. Interior access via L-shaped seating area, swing-up (I 490 LE, 500 QB) or lift-up side seat bench (not I 441 LE) as well as via large living area floor hatch in entrance and kitchen area

4 **Malibu scooter garage**

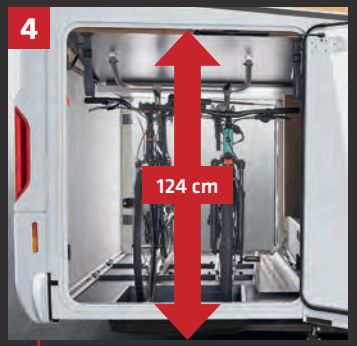
- Large interior height, plenty of room for E-bikes, motorized scooters or bicycles. Load capacity up to 250 kg
- Lowered loading edge for easy loading
- Garage floor with robust GRP covering prevents slipping and damage
- Two standard garage doors for access from both sides and easy loading and unloading
- With lighting, heating and frost-proof insulation
- Lashing rails at both sides with flexibly positionable lashing eyes for easy securing and loading

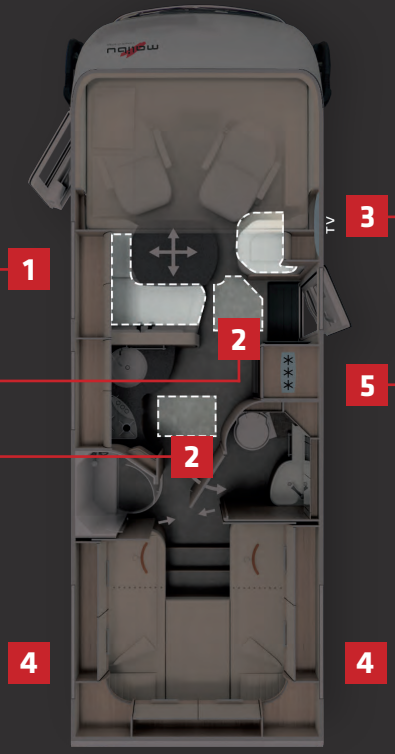
5 **Large additional double floor storage compartment** with separate exterior hatch

Usable height up to 48 cm

Scooter garage, load capacity up to 250 kg

Optional Malibu Pedelec scooter garage for queen-size bed models





MALIBU PEDELEC SCOOTER GARAGE

(Optional for I/T 440 QB, 500 QB)

Pedelec scooter garage with interior height extension

Will your big bike or Pedelec not fit into the rear garage of your motorhome?

That's no problem with Malibu – even with queen-size bed models I/T 440 QB and I/T 500 QB.

Malibu has developed a Pedelec solution especially for the requirements of queen-size bed models. Wonderfully simple, simply wonderful – how it works: just push up the queen-size bed from the outside with a single manual operation, slide the bike into the garage using the optional push-in system, and lower the queen-size bed again. The Malibu trick: the front wheel of the bike slots into a recess in the floor. Everything securely lashes down – ready to go. The recess in the floor and the underside of the bed, which can be pushed upwards, create a loading height of up to 124 cm. If no bicycle is being transported, the recess in the floor is covered with a floor panel, creating a level loading surface. Inside, in the sleeping area, the queen-size bed remains at its low, conveniently accessible height.

1 Easy loading thanks to optional infeed system

2 Loading height extension

3 Optional transport anchoring system

4 Cover panel for floor recess

Malibu Pedelec scooter garage advantages

1 Optional ramp system for convenient loading and unloading of bikes

2 Interior height extension of the Pedelec garage from 112 cm to 124 cm

3 Optional transport fixing system makes secure anchoring possible while travelling

4 Cover panel for floor recess, therefore also usable as a level loading surface

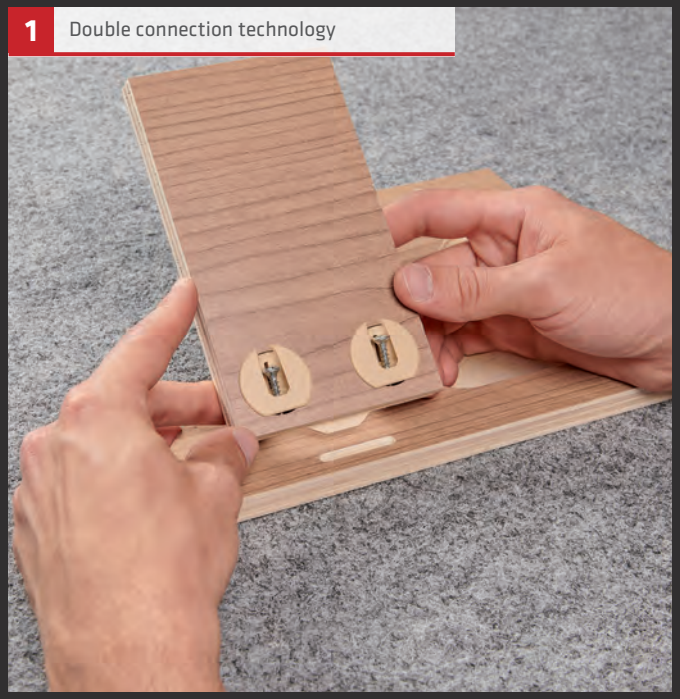
5 Bike with handlebar height of up to 124 cm can be transported, no unloading required for sleeping

6 Queen-size bed in sleeping area with low and convenient bed access

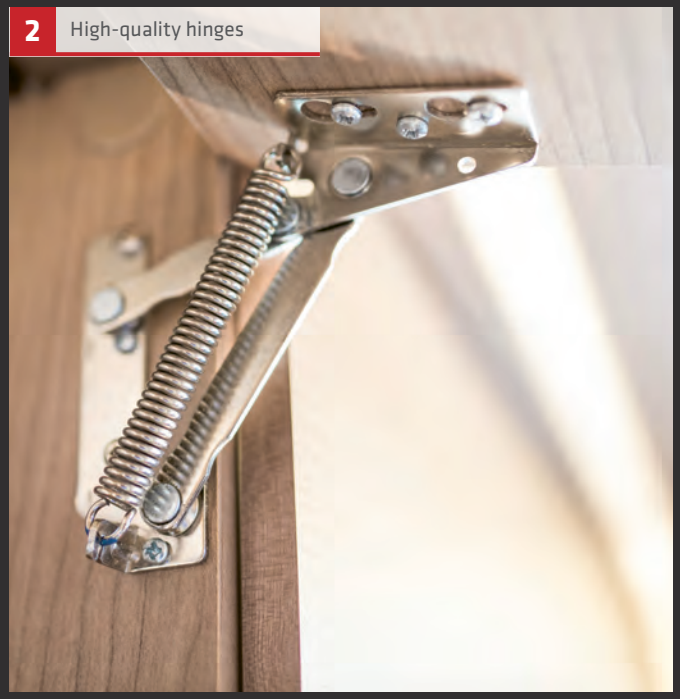
7 Innovative solution with simple operation

FURNITURE CONSTRUCTION WITH DOUBLE CONNECTION TECHNOLOGY

1 Double connection technology

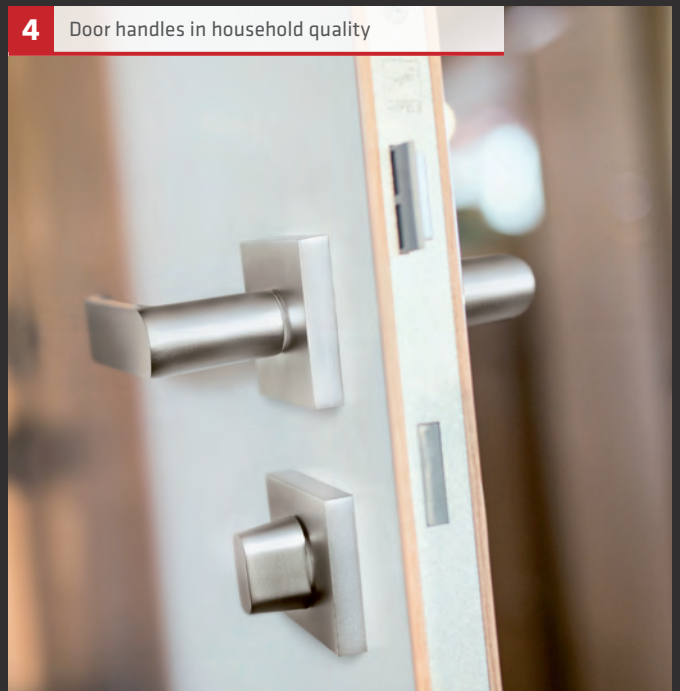


2 High-quality hinges



3 Roller-mounted drawers with self and soft closing mechanism

4 Door handles in household quality



5 Spacious overhead storage cabinets with internal shelf

6 “Modernline” furniture architecture

7 Underlighting with LED lighting technology

8 Curved kitchen worktop

	Malibu furniture construction	Frequently used standard furniture construction
Furniture connection	Double connection technology - screwed and also mortised for maximum stability and long lasting furniture construction	Mainly just screw simple connections, screws of furniture components often visible
Hinges and fittings	High quality and robust metal hinges, bathroom doors with internal hinges, door handles and fittings in household quality	Low-cost plastic hinges and fittings as well as exterior hinges on bathroom doors
Noise level while travelling	Low noise levels while travelling thanks to high quality furniture construction (e.g. felt coverings on all furniture connections), hinges in household quality and microfibre covering in the overhead storage cabinets	Significant noise generation while travelling due to lack of noise reducing measures in the furniture construction

Advantages of high-quality furniture construction with double connection technology:

1 Double connection technology: the furniture is screwed together and also mortised – for maximum stability and longevity

2 High quality, robust metal hinges

3 High quality, roller-mounted kitchen drawers with self and soft closing mechanism

4 Door handles and fittings in household quality

5 Spacious overhead storage cabinets with internal shelf and microfibre lining for reducing the noise level while travelling

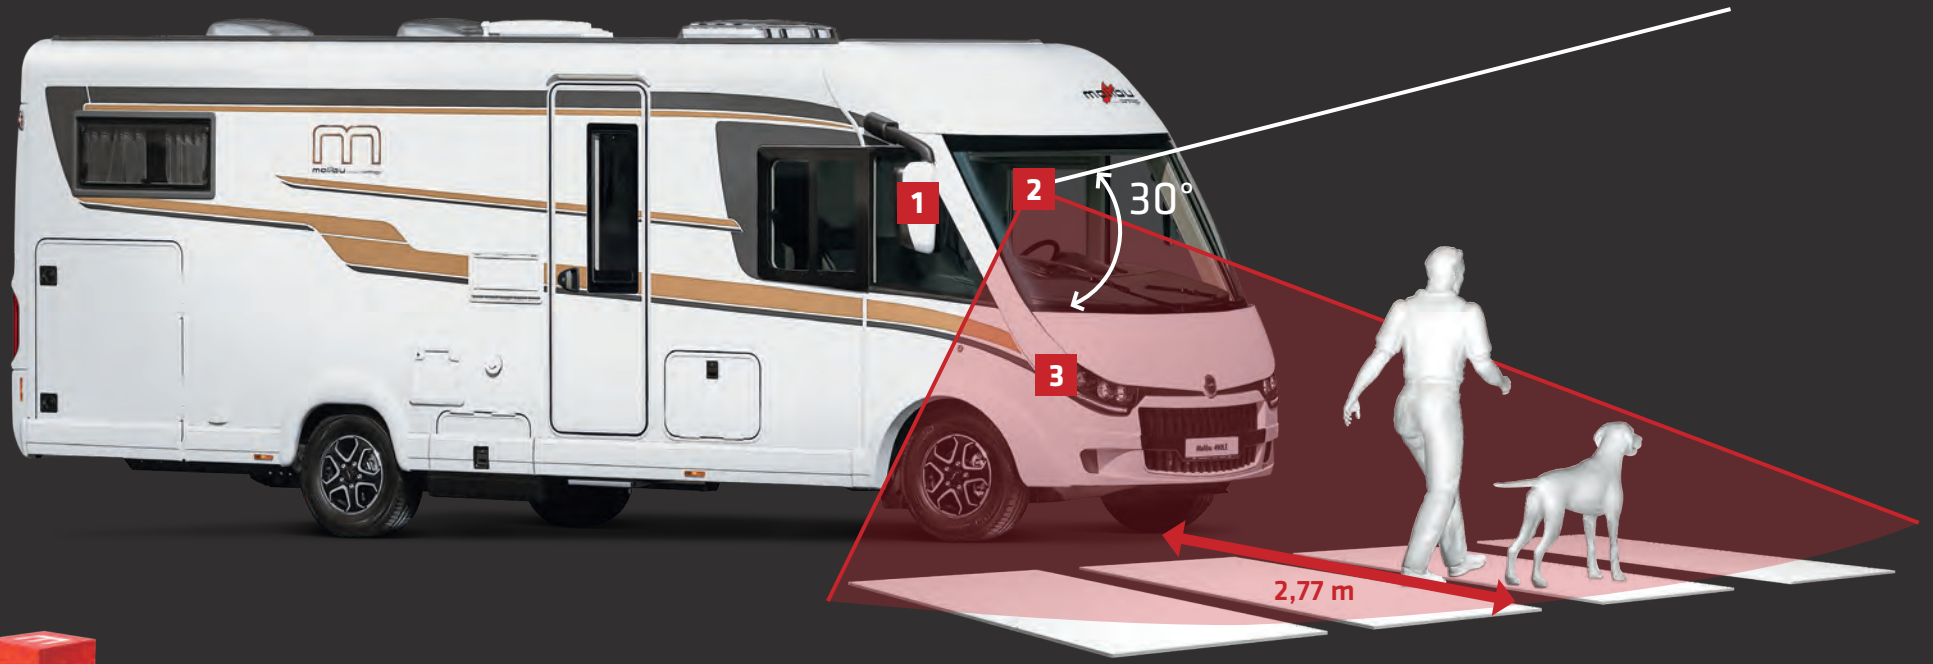
6 “Modernline” furniture architecture with concave curved storage cabinet flaps with modern avant garde design for a particularly spacious feeling

7 Elegant under-lighting of kitchen worktops and floor lighting in the seating area and kitchen area for a cosy atmosphere*

8 Elegant and practical at the same time: curved kitchen work surface for visual partitioning of the living and kitchen area and as additional storage area*

* depending on model

BEST DRIVER'S CABIN VISIBILITY CONCEPT AMONG THE A-CLASS MOTORHOMES



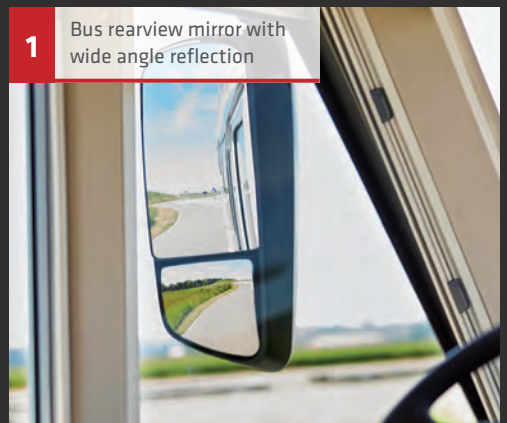
Advantages of the driver's cabin visibility concept:

1 Best all-round visibility thanks to rear-view bus mirror with large main mirror and wide-angle wing mirrors

2 Optimal overview in driving position thanks to active driving, extra-low dashboard for early visibility of the road as well as the deep panoramic windscreen

3 LED daytime driving lights

Malibu visibility concept: View of road surface after just 2.77 m (A-class).
Competitor models frequently only achieve this at 4 to 5 m.



1 Bus rearview mirror with wide angle reflection

2 Extra-low dashboard

3 LED daytime driving lights

Colour differences from the original are possible for typographical reasons. To make your selection, ask your dealer partner for their sample book.

MALIBU INTERIOR AND EXTERIOR

Bellagio world of style

Overhead storage cabinet front panels: high gloss ivory with wooden strips and chrome piping

Overhead storage cabinet bottom: matt ivory

Table and worktop decor: Shale look

PVC base: Graphic Stone

Alloy wheels

Optional: 16" alloy wheels for Fiat Ducato f35 light chassis

Optional: 16" alloy wheels for Fiat Ducato f40 heavy Chassis / f35 light Chassis in conjunction with automatic transmission

Advantages of the Malibu interior:

- Living area upholstery with highly effective stain protection: fluids do not penetrate into the fabric. The majority of stains can be easily wiped off with a damp cloth
- Living area upholstery is hard-wearing and easy to look after
- Washable curtains and decorative cushion covers
- Antibacterial mattress cover
- Hard-wearing PVC floor covering
- Excellent anti-fade properties
- Optional: Malibu world of sleeping & decoration set with up to three decorative cushions (depending on model), a Jacquard house blanket with woven-in Malibu logo and a fitted sheet set to match the respective model

MALIBU TEST & RENT: ENJOY A TEST DRIVE

malibu RENT

Changes may occur during the model year after the editorial deadline for this printed document in July 2021. The manufacturer reserves the right to make structural and design changes that become necessary, provided they are in the interest of technical progress and are reasonable for the customer, plus changes to equipment, differences in colour combinations or individual colour shades, material quality differences and changes to the scope of delivery on the part of the manufacturer. This also applies to colour differences on basic vehicles, insofar as they are a result of changes made by the basic vehicle manufacturer. Please consult your dealer for detailed advice concerning the status of the current product or series.

The information about the scope of delivery, appearance, performance, dimensions and weights of the vehicles (differences within the scope of the factory tolerances (± 5% max.) are possible and permissible) corresponds to the state of knowledge at the time of going to print. Please note that some of the vehicles are depicted with special equipment for which an additional charge applies. In some cases they are shown with equipment features that do not correspond to the series production version and are also not available as special equipment. The decoration depicted in the catalogue is not a constituent of the scope of delivery. More technical information can be found in the price list.

Reprinting of this document, or even extracts thereof, is only permitted if written authorisation is obtained from Malibu GmbH & Co. KG beforehand. The information in this publication is compliant with the German StVO and StVZO (road traffic and road traffic licensing regulations).
No liability accepted for errors and/or misprints.
